

**Part No. TVCS-6000-10**

Replacement case assembly for the TTU-205 test set. Many TTU-205's are damaged due to improper handling or during transport. TestVronics has designed a mobile replacement case with a retractable handle and recessed wheels. This allows the test set to be transported around the flightline with ease, without the need to lift the unit, improving equipment and user safety. The replacement case features:

- Replaces all TTU-205D, TTU-205F, TTU-205G, TTU-205H, TTU-205J and Flight Line Maintenance Test Set cases
- 100% drop in replacement - installation takes less than 10 minutes
- Retractable telescoping handle with wheels allow easy one person transport of the test set. Both wheels and handle assemblies are easily replaceable
- Designed with a slightly deeper cover assembly for no hassle storage of all accessories
- Available in FED-STD colors: Commercial Yellow, Olive Drab Green and Gray
- New monel mesh silicone EMI gasket is pre-installed
- Decal set and Lid Instruction set applied with proper model designation and Serial number (*please provide model and serial number at time of order*).
- Dimensions: 23.34" L x 17.72" W x 15.83" H
